

**The Next Generation of the Rhode Island State Parks Pocket Ranger® App is Here!**

*The Official RI State Parks Pocket Ranger® app splash screen.*

Attention all park goers, nature lovers, and outdoor enthusiasts: the **FREE Rhode Island State Parks & Recreation Pocket Ranger® App** for iPhone and Android has just gotten a complete overhaul! We also added Amazon Kindle Fire to our app platform.

This interactive outdoor guide, created by ParksByNature Network™ in partnership with Rhode Island State Parks, is the ultimate guide to exploring Rhode Island's state parks.

Thanks to user comments and suggestions, the app has been totally revamped. Updates include:

- A new user interface (UI) with a sleek, more photo-centric home screen design.
- Photo galleries on park description pages.
- A new *Explore* feature to optimize search capabilities, allowing a 4-in-1 search by location, activities, category, and site name.

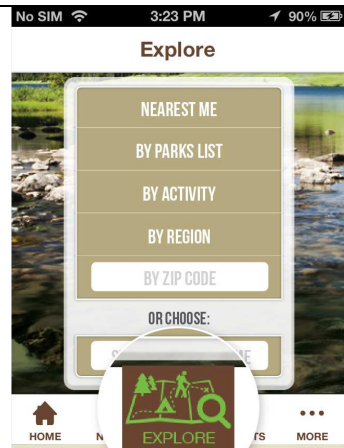

These newly added features make it easier to navigate the app, *and* the parks!

Of course, the app still contains plenty of standard features to maximize your outdoor adventure:

- Educational info, amenities, maps & directions
- Real-time *Calendar of Events*
- News, advisories, and weather alerts
- Social networking and photo/video sharing
- Potentially life-saving *Alert* feature
- GPS Tours
  - Record trail distance and time elapsed
  - Mark Photo Waypoints
  - Recall, post or share saved data
  - *Friend Finder*
  - Built-in compass

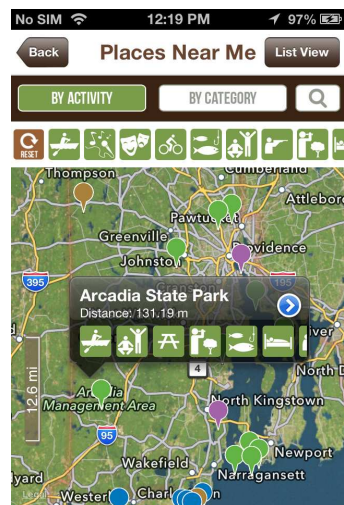

The next generation of the Rhode Island Pocket Ranger® app is now available. Be on the lookout for this exciting new update!
